

**Draft Agenda  
MDEQ-EPA Meeting  
December 12, 2016**

**10:00 Introductions/ Welcome**

**10:15 Review of what is required to meet 131.14?**

- MDEQ's 2017 revisions need to address the following elements
  - Justification to demonstrate there is need for the variance
  - Identify the highest attainable condition (HAC)
  - Define the length of the variance.
  - Provide a justification for the timeframe to meet the HAC.
  - Include a re-evaluation component

**10:30 Demonstrate there is need for the variance**

- What needs to be updated for 2017

**10:45 Identify the highest attainable condition (§131.14(b)(1)(ii))**

- Update from MDEQ on their current thinking concerning the proposed HAC limits for the 3 discharger categories
- Discussion

**11:15 Define the length of the variance and provide a justification for the proposed timeframe (§131.14(b)(1)(iv) and §131.14(b)(2)(ii))**

- MDEQ's current thinking on how to approach the duration
- Discussion

**12:00 LUNCH STRETCH BREAK (Order In)**

**12:30 Include a re-evaluation component (§131.14(b)(1)(iii), (v) and (vi))**
